

# "OUR SHINING STAR"

**Divya Kriplani**  
MNIT Jaipur 3<sup>rd</sup> Year

Piyush Sir had been a constant support during my days of IIT-JEE preparation. His motivation, great teaching skills and experience was major reason I used to do well in Mathematics. He had helped me whenever I needed him. Thank you for being with me and believing in me Sir!!!

IIT BHU 3<sup>rd</sup> Year

Piyush Sir was my constant motivation during JEE preparation. His exclusive teaching methodology and guidance is a great help for those who wish to fly high and achieve greater goal in life. Even ready to help the students, he is a beacon of knowledge and fortitude, very popular amongst his student. As it is rightly said, you can't be able to make full out of you, if you don't have proper guidance, but luckily at that point I had that guidance. The chapters which seems difficult to most aspiring students became my favourite because of Piyush Sir. He not only teaches concept of Mathematics, but also give life long lessons, which are very helpful. At last I want to thank Piyush Sir for believing in me.

I am Deepak Suthar currently studying in IIT Delhi (B.Tech in Mathematics and Computer Science). My dream of studying in India's Best engineering college was all possible because of my mentors and teachers specially Piyush Sir. In my preparation journey, I had many setbacks and instability but with the proper mentoring and guidance of Piyush Sir, I not only used the subject but also cracked JEE MAINS and ADVANCED. One important thing which I learnt was anyone can crack such competitive exams with proper follow along path on how to study the subject and consistency throughout the preparation. Now, there a lot of distractions out there which could hamper your selection and there you need a good teacher cum mentor who helps you academically and mentally to avoid distractions and crack such examinations.

Hello All,  
My name is Adwit Ojha. I am a third year undergraduate from NIT-Bhopal. Coming to my selection, my Maths teacher - Piyush Sir had a very big role. He was so helpful. He was even available during night. He always cleared our doubts very patiently. He is a huge motivator too. Before he came, everything was falling apart in the Maths. He made us understand all the complex topics very easily. All that I achieved in Maths, or that I started to love Maths even more, I give the credit to Piyush Sir.

NIT Jalandhar 2<sup>nd</sup> Year

I have been studying in NIT-Jalandhar since 2019. I prepared for JEE under humble guidance of Piyush Sir. He is an amazing faculty of Maths. His concepts are very clear. He explained and taught me really well that I could get a score of 100/120 in JEE-Maths 2020. He also always motivated me whenever I was falling apart in the journey. I am grateful that I was his student.
